

***Until they are, alert them to hazards with ZipWall® Caution Tape Reel.**

ZipWall® Caution Tape Reel.™ The fast effective way to highlight hazardous areas.

Wherever work needs to be done, there will always be potential dangers - wet floors, wet paint, areas around ladders, overhead working, for instance. It's a fact that people don't always notice such hazards, so it's up to you to ensure they're clearly highlighted. And there's no faster, easier way to do that than with the ZipWall® Caution Tape Reel.

The ZipWall® poles and fixing clips provide convenient, easily positioned location points for the caution tape, removing any need for fastening to other structures. As an additional service, we can also supply custom-printed caution tape bearing your corporate brand or a specific safety message.

- **Complete portable system.**
Can be erected around any hazard.
- **Fits directly onto the ZipWall® props.**
Quick and simple to install.
- **Choice of ZipWall® props to suit ceiling height.**
Can be used from 1.7-6m height.
- **Fixed between floor and ceiling on ZipWall® props.**
No risk of falling over like other pedestrian barrier systems.
- **Comes complete with tape guides which can be attached directly onto ZipWall® props and includes 90m of Printed Caution Tape.**
Creates a neat professional looking barrier.
- **Caution Tape can be installed at multiple levels.**
Can be used to create a physical barrier.
- **Can be used with ZipWall® screening system.**
Highlights the presence of a screened working area.
- **Manufactured from heavy duty plastic.**
Robust and durable system.
- **Integral locking mechanism.**
Allows constant tension to be maintained on the tape.
- **Multi directional winding mechanism.**
Tape can be re-reeled quickly after use.
- **Reusable.**
Cost effective barrier system.
- **Custom printed Caution Tape available on request.**
Have your own corporate brand or safety message printed onto tape.

It's as simple as this...

Extend telescopic ZipWall® poles around the hazard.

Secure the ZipWall® pole between the ceiling and floor.

Twist pole to lock into place.

Extend roll towards the next ZipWall® pole.

Slide Caution Tape into guide.

Extend tape around hazard area.

Attach Caution Tape Reel clamp.

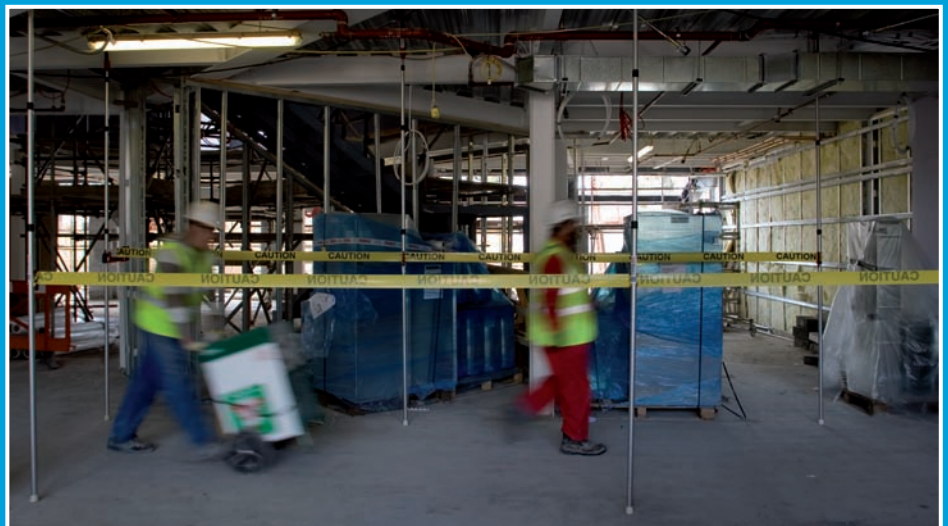

Attach tape guides to keep Caution Tape upright.

Unlock the reel.

End of tape clips neatly into last tape guide.

The hazard area will then be clearly marked out.

With ZipWall[®] and Caution Tape Reel[™], working together, clean, dust-free and safe work areas are on a roll.

ZipWall[®] is the unique screening system from Protec. Installed in minutes by just one person, it provides an instant barrier against airborne dust. Add eye-catching Caution Tape Reel to the screen, and there's no more effective way to make a clear site safety statement.
